

[← Back to home](#)

Process Publishing

The PUBLISH menu contains all needed functions to publish your FireStart models to the FireStart Process Portal.

Use the corresponding buttons to **Publish** or **Unpublish Model**.

Find a complete description of the buttons in the Publish menu [here](#).

Your process is not visible in the FireStart Process Portal?

If your FireStart model is not visible in the FireStart Process Portal, the model has not yet been published. Every published model has an orange bar next to the model name in the model navigation.
